

# Public Advisory Board

**Are you aged 18-30? Would you like to be part of our Public Advisory Board?**

We are setting up a **Public Advisory Board** for the **PPI Ignite Network**.

We are looking for **one or two young people, aged 18-30**, to join our Public Advisory Board, which will guide the work of the Network.

The PPI Ignite Network connects researchers, the public and patients all over Ireland, so that research is more relevant to the people whom the research results will impact.
