FUNDING

→ Applications are open for the Creative Youth on a Shared Island Funding Scheme.

The Shared Island-dimension of the Creative Ireland Programme wants to explore creative opportunities for young people to connect.

The scheme seeks to reach children and young people across the island of Ireland. Our aim is to harness the experience and expertise of organisations working in the creative, cultural, arts, community and youth sectors to engage young people. Together we can bring children and young people together and nurture a sense of collaboration, understanding and hope for the future, through a creative medium.

We are seeking projects from partnerships that are of significant scale and ambition. Applications should have at least one partner based in each jurisdiction. Grant funding of up to €180,000 will be awarded to at least 3 projects. It is envisaged that at least one grant will be awarded to a partnership that targets seldom heard children and young people. The projects should run between June 2024 to December 2025.

A full briefing document and FAQ is available below:

Briefing Document in English FAQ

Applications must be completed online and submitted via Submit.com by 25th March 2024.

11th Biennial International Conference

13-14 June 2024

Promoting Equality through Family Support

For many families, the environment in which they care for their children is constantly evolving in an era of sustained social, geopolitical and economic uncertainty and volatility. Social exclusion, discrimination, poverty, migration, displacement and the accompanying trauma strongly impact on parenting and family life. In this conference, we consider the critical role family support can play in contributing to the achievement of the sustainable development goals by confronting the forces of inequality and exclusion. The conference will reflect on current debates, challenges and opportunities for promoting and supporting equality, inclusion and fairness for all families and children. Through plenary and workshop sessions we will explore themes related to how family support practices, services and policies can promote equality in the context of gender, sexuality, disability, poverty, migration and participation. This international, intersectoral and interdisciplinary conference will offer cutting-edge thinking, research evidence and innovative practices. It will be of interest to practitioners, service leaders, policymakers and researchers and academics.

This conference committee now welcomes proposals from delegates for presentations in parallel sessions, poster format or interactive workshops. Abstracts are invited from the practice, policy, research and academic communities in relation to the conference theme of promoting equality through family support and specifically in the following areas.

Promoting equality through family support in:

- Individual or group programmatic practice models
- Workforce learning and development
- Service planning and design
- Policy development and implementation
- Research and evaluation

Although we are calling for contributions on these themes, other relevant topics are welcome, but all submissions must reflect the overarching theme of the conference. Abstracts must be submitted by **March 8th 2024** and will only be accepted if completed using the template provided. Further details on presentation types and timelines can be found on the submission <u>template</u>. We are seeking a variety of presentation formats, to include paper presentations, posters and interactive workshops.

Abstracts will undergo a peer-reviewed process with successful applicants notified by **April 1st, 2024**. Please note that all presenters are required to register for their attendance at the conference.
